Circus bar was born in September of 1983. Its founders have their roots in a very traditional European circus: Circus Atlas. Today, Circus Bar stands for bohemian atmosphere, direct contact with the fascinating world of flamenco, Latin music and its performers, legendary wood-oven pizza, the highest quality Mediterranean and especially Italian cuisine, creole eggs, organic coffee from Lake Atitlán, excellence in a variety of wines, imported drinks and cocktails, and one of the world's most important collections of circus posters.
